Dear «Salutation»,

**Re: Compulsory Installation of Residual Current Devices & Smoke Alarms  
Strata Plan 05629 – The Mews, 147-159 Charles Street, West Perth**

The Council of Owners have requested we write to all owners advising that the -

1. Deadline is fast approaching for the installation of RCD's for all units – **8<sup>th</sup> August 2011** and,
2. Deadline for the installation of mains powered smoke alarms for all units – **1<sup>st</sup> October 2011**.

All owners are required and responsible to fit RCD's (one for power and one for lights) and smoke alarms for their units.

If you have not done this, please contact your electrician to make relevant arrangements.

Please refer to the complex website for further information:
