WEST PERTH WA 6005

Your building is one step closer to experiencing the benefits of the nbn™ access network

Dear Legal Owner / Owners Corporation,

You have received this Notice as we recently performed installation activities at your property as part of the **nbn™** access network rollout. We're pleased to confirm that we've now completed these activities.

Once the activities have been completed in the rest of your area (note: this may take several months), notify the occupants in your building that they can contact a phone and internet provider to start experiencing the benefits of the **nbn™** access network. They will need to order an **nbn™** powered plan before their existing services are switched off to avoid disruption of affected services.*

Important information on equipment compatibility when connected the nbn™ access network

The rollout of the **nbn™** access network will involve new technologies, and some existing equipment may not be compatible with these at all times.

If you have any of the following equipment:

- Monitored fire alarms and lift emergency phones
- Medical alarms, auto diallers and emergency call buttons
- Monitored security alarm systems
- Fax machines and TTY equipment

You'll need to do the following:

1. Register your equipment with **nbn** by calling **1800 227 300** or visiting nbn.com.au/compatibility
2. Call the equipment provider/manufacture to check that it will work with the **nbn™** broadband access network, or whether you'll need to find an alternative solution.

Power blackouts:

Equipment connected over the **nbn™** access network will not work during a power blackout. Make sure you have an alternative form of communication handy (such as a charged mobile phone). If you have a safety-critical device (e.g. a medical alarm, monitored fire alarm or lift emergency phone), speak to your equipment provider about alternative solutions.

For more information on equipment compatibility, visit nbn.com.au/compatibility

Stay up to date with the rollout of the nbn™ access network in your area
Register your address with nbn at nbn.com.au

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Justin O'Meara', is positioned below the 'Yours sincerely,' text.

Justin O'Meara

General Manager, Power, Land Access & Stakeholder Engagement, **nbn**

*Services provided over the **nbn™** broadband access network will be replacing phone and internet services provided over most of the existing landline networks, including copper and the majority of HFC networks within the fixed line footprint. Services provided over existing fibre networks (including in building, health and education networks) and some special and business services may not be affected. To find out if your services will be affected, please contact your current phone or internet provider. For more information, visit nbn.com.au/switchoff or call 1800 687 626.

Future Maintenance Form

Date:	Property ID: 6PIE-21-00-MPS-025 Plan No.
