Important information about your Synergy SmartPower® (SM1) tariff

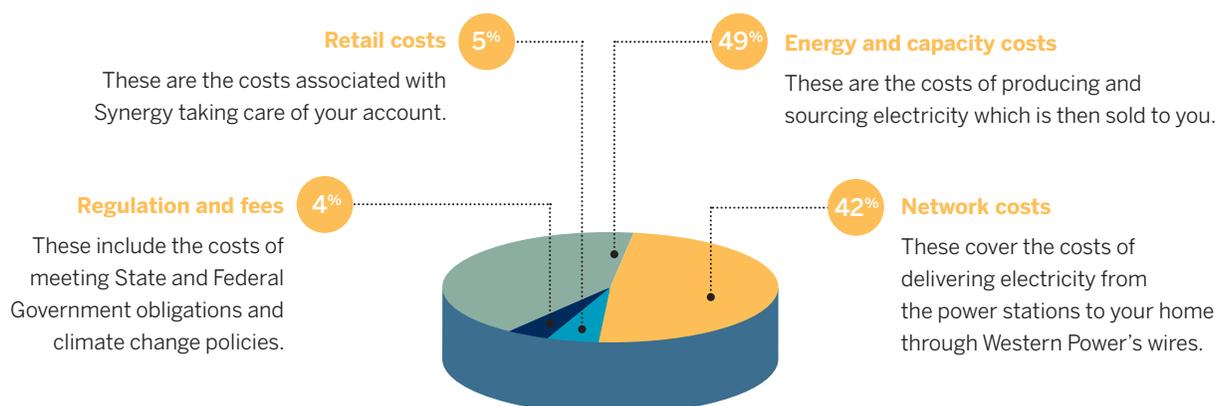

Changes to the Synergy SmartPower® (SM1) tariff

The recent 2015 State Budget announcement signaled changes to State Government regulated retail electricity tariffs, including the Synergy SmartPower® (SM1) tariff.

As you know, SmartPower rewards you when you shift the majority of your energy use to the cheaper off-peak and weekend shoulder periods. By shifting your usage to the cheaper periods, you may be able to save on your electricity bill.

From 1 July 2015 an increase will apply to the existing Synergy SmartPower® supply charge, peak, off-peak and shoulder time band rates.

How your dollar is divided

* All percentage figures are approximate only, based on Western Australian household A1 tariff average consumption. Correct as at June 2015.

Please refer to the table below for more information on the new SmartPower tariff rates.

SmartPower (SM1)	Supply charge* – cents per day	47.1834
	Supply charge for additional homes^ – cents per day	36.6357
	Peak Weekdays† 11am – 5pm (summer) Weekdays† 7am – 11am (winter) Weekdays† 5pm – 9pm (winter)	50.7286
	Weekday Shoulder Weekdays† 11am – 5pm (winter) Weekdays† 7am – 11am (summer) Weekdays† 5pm – 9pm (summer)	25.3254
	Weekend Shoulder 7am – 9pm	20.9867
	Off-Peak Everyday 9pm – 7am	13.1817

All prices include GST and are effective at 1 July 2015. Prices and time periods are subject to change at any time. By law we calculate our prices to four decimal places. Electricity is charged by the 'unit'. A 'unit' is one kilowatt-hour (kWh). *The supply charge is the daily fixed charge element of your tariff which applies irrespective of how much electricity you consume. ^Applies to multiple flats and home units when a Western Power sub meter is supplied through a main meter. † 'Weekday' means Monday to Friday, including public holidays.

What these changes mean to you as a SmartPower customer

Following the 2015 budget announcement and the proposed increases, we did some analysis of your annual consumption from May 2014 to May 2015 and we can see you've managed to make the most of the cheaper off-peak pricing periods. You will continue to be rewarded for shifting the majority of your usage to the cheaper off-peak periods. So remember, the more you shift the more you'll save.

To continue saving and to maximise the benefits of SmartPower, consider moving even more of your electricity usage to the cheaper off peak periods and remember, being energy efficient is still the best way to save on your bill. For a host of practical energy saving tips, visit our website at synergy.net.au/tips
